

# Eurobhyvecon

## 2025 in Zagreb, Croatia

Thank you for considering a 2025 Eurobhyvecon Sponsorship!

Eurobhyvecon 2025 takes place September 26th during EuroBSDcon and fosters bhyve, virtualization, container discussions and development. This 15 to 40-person event consists of presentations and workgroups by people using bhyve in production, and developer presentations.

As a Eurobhyvecon sponsor, you are providing critical support to this annual community event, without which it would not be able to continue. Your generous contributions help us pay for the event venue, live streaming, food and beverages, and hopefully SWAG.

Let us know if you have a special area of interest and we will build a package to meet your needs!
